

## **Amendments to the Specification:**

On page 1, line 1, please delete the title "Description".

On page 1, please replace the title which appears on lines 2 and 3, with the following new title:

– CUP - SHAPED ULTRASONIC TRANSDUCER FOR A FLOWMETER–.

Please replace the paragraph which appears on page 7, line 5 and ends on line 9, with the following rewritten paragraph:

-Basic building blocks of the oscillatable unit 16 are the disc-shaped piezoelectric element 9, 10, the roof element 17 and the floor element 18. The piezoelectric element 9, 10 is arranged symmetrically to the plane 14 of symmetry. The roof element 17 and the floor element 18 are placed symmetrically on both sides of the piezoelectric element 9, 10. In an edge region of the roof element 17 and floor element 18 there is located a chamber 23. -
